## PRESIDENT'S APPEAL

It Was Attentively Listened to This Morning at Washington.

An Adjournment Until 3 O'clock This Afternoon Then Taken By Those There.

## OTHER NEWS BY TELEGRAPH

Washington, Oct. 3.—The presidents of the anthracite coal roads and representatives of the striking miners met President Roosevelt at the White House this morning and listened to a strong appeal to settle their differences. The president's appeal was based on a consideration of the public interest, humanity and patriotism. The parties to the fight adjourned until 3 p. m. when they will meet again and it is expected that some definite propositions will be made. What is accomplished will be set forth in an official statement by Secretary Cortelyou, and given to the press. There is a strong impression in administration circles that the strike will be ended in some way. President Roosevelt has utterly given up the hope of ending the strike by federal interference, after talking over the matter carefully with all his cabinet, especially Attorney-General Knox, who made a diligent search for some means for legally closing the breach between the operators and miners and give the people the relief that is so much needed.

If the object of the conference miscarries the country will be informed that the president has done everything in his power to bring about desirable conditions for the people, and his failure was not due to any lax efforts on his part.

Some comment is being made on the fact that J. Pierpont Morgan was not invited to the conference. It is rumored that he is out with Roosevelt and has been ever since action was taken against the Northern Securities company. Although Morgan is regarded as the greatest financial dictator in the United States, he is not a coal operator.

It can be stated on good authority that Secretary Root was largely responsible for the conference. For the past ten days he has been flitting between Washington and New York constantly, and it is believed that he has already in his possession a sufficient summary of the views of those interested in the strike to warrant the feeling that the whole matter can be amicably settled after today's conference.

Washington, Oct. 3.—The navy today awarded the contract for the construction of the battleship Louisiana to the Newport News Shipbuilding company at its old bid of \$3,990,000.

Franklin Ky., Oct. 3.—Prof. Charles Rebert, music teacher at Franklin Female college, took an overdose of morphine today for the purpose of committing suicide.

## HER TRIPLE LIFE OVER

Mrs. Willets Brings Kansas to the Front Again.

Lived Three Lives and Finally Wound Up By Eloping with a Drummer.

## HER ESCAPADES WERE MANY

Topeka, Kan., Oct. 3.—All Kansas is talking today about the escapades of Mrs. Edith Willets, a pretty country woman from Jefferson county, who is known to have two husbands and a long list of disappointed suitors, one of whom is expected to die as a result of an attempt to take his own life, made when he learned of his sweetheart's duplicity. She has now disappeared with her second husband.

Mrs. Willets' career has played a varied repertoire for the last five years and it is only within the last week that even her closest neighbors knew that she was other than the honest wife of a respectable farmer.

At her home in Jefferson county she was a good wife and mother. Frequently she made long visits to a mythical uncle, whose fortune amounting to \$60,000, she made her husband believe she would inherit.

It now develops that her long visits were in reality spent at a musical college in Lindsberg, McPherson county, where J. W. Bundy, a suitor, was paying for her education with the expectation of marrying her when she would graduate. Bundy knew Mrs. Willets as Edith Simmons, her maiden name.

It was while attending school at Lindsberg last year that Mrs. Willets met W. F. Elliott, a salesman for a boot and shoe company of Milwaukee. Elliott fell in love with her.

She told him that her father was Captain Sims, a cashier in the Topeka bank, and that she had a wealthy uncle who would leave all of his property to her.

She would inform him in one letter how her father and uncle were opposed to her marriage to any one beneath her station and Elliott lived in constant fear that his sweetheart's "father" or mythical uncle would learn of his love for the young woman and send her to some foreign country. Last week he went to Lindsberg, where she had just entered college for her final year, and persuaded her to wed him.

During all of her comings and goings to and from the farm in Jefferson county her husband believed that she was true and that it was necessary for her to travel and look after her uncle's property. He is said to be nearly bankrupt as a result of the drain on his purse by her trips.

## A TOE AMPUTATED.

Drs. Gurin and Troutman yesterday afternoon performed an operation on the foot of Blaine Vines, of Meyers street. Vines cut the foot several weeks ago and gangrene set in necessitating the amputation of a toe. It is thought this will remedy the injury and the young man will be troubled no more with it.

Shreveport, Oct. 3.—T. R. Vickers was shot dead. His body fell in his wagon and the horses, becoming frightened, ran twelve miles to the home of their dead owner, with the body of the latter bumping in the wagon. Coglin surrendered.

## FRENCH TURF SCANDAL.

FIFTEEN AMERICANS TO BE ESCORTED TO THE FRONTIER UNDER DECREE.

Paris, Oct. 3.—It is affirmed authoritatively that there will be no court proceedings in connection with the turf scandal, but that the minister of the interior, upon the demand of M. Cavaud of the detective department, will simply issue a decree of expulsion against the undesirable individuals in question. There are said to be fifteen of these characters, Americans and English, who are to be escorted to the frontier, and one of them is a very prominent jockey.

Both have been sentenced to five months imprisonment at hard labor upon conviction of intimidation.

## COLLISION IN TUNNEL.

FIVE PERSONS KILLED AND THREE INJURED.

Parkersburg, W. Va., Oct. 3.—Five persons were killed and three injured in a head end collision between two freight trains in a tunnel near Cornwell's on the Baltimore and Ohio railroad today. The train carried several cars of cattle, which were all killed or injured. Probably twenty cars were wrecked and the tunnel is filled with debris. Fred Pearce, engineer of one train, Wm. Miller, brakeman, and a tramp were killed. It is thought several others are in the tunnel and two can be seen, but are beyond reach at the present time.

## NO BOARDING HOUSE

Court of Appeals So Decides in Regard to Waiting Rooms.

Passengers Who Got Judgment Against the Illinois Central Lose Out.

### AN IMPORTANT DECISION

The court of appeals yesterday decided a suit of great importance to the railroads of the state, and the case is of local interest in addition, because the plaintiffs in the suit decided were on their way to Paducah when the alleged cause of action occurred.

Elizabeth and Joseph Lalage were in the waiting room at Central City awaiting a train for Paducah, when they claim they were attacked by some drunken men.

In the Muhlenburg circuit court they secured a judgment for \$1,500 and \$900 respectively, and the Illinois Central took an appeal.

Yesterday the court of appeals reversed the case on the ground that the attack took place five hours before train time, and that railroad companies are not required to furnish an inn or lodging house for passengers, but are required to provide a waiting room for only thirty minutes before train time.

The decision will be a great relief to the railroad companies, as they constantly experience trouble with people on account of loafers about the waiting rooms.

### IN POLICE COURT.

#### ONLY A FEW CASES ON THE DOCKET THIS MORNING.

The case against Robert Caldwell, colored, for malicious assault, and one against Caldwell and George Boaz for a breach of the peace, was left open until this afternoon. Boaz ran away to Mayfield and was not caught until last night. He was brought in at noon by Marshal McNutt.

Will Taylor, colored, was fined \$5 and costs for a breach of the peace. He was charged with striking another negro in the head and almost killing him, but the man left the city.

Hattie Jones, colored, a coke fiend, was charged with being drunk and disorderly. While in a dazed condition she wandered into a yard on South Seventh street and was shot at. When found by the police she had crawled under the house and was stark naked. She is a confirmed fiend and her case was left open as the officers do not know what to do with her.

Tom Clark was fined \$1 and costs for drunkenness. He fell through a window at the Emery cigar store on lower Broadway last night, but escaped with a few scratches from the broken glass.

Master Mechanic Barton returned from Fulton this morning.

## CHILD'S MEDICINE—WHY?

Because Scott's Emulsion relieves such an extraordinary variety of children's diseases all the way from slight colds to the serious hip disease.

Because Scott's Emulsion is as harmless as milk. Well borne even by the delicate stomachs of babies.

Because children respond so quickly to its action. A medicine peculiarly suited to their sensitive nature. It is wonderful how rapidly delicate children improve in every way while taking Scott's Emulsion.

Because children like the taste. Most of them like Scott's Emulsion at once. The rest soon learn to like it. Little daily doses bring the results.

We'll send you a little to try, if you like.

## A RAILROAD PUZZLE

What is to Become of the N. C. & St. L. Being Discussed.

It Is Now Operated By the Louisville and Nashville Railroad.

### IT IS VALUABLE PROPERTY

The big Louisville and Nashville deal has aroused considerable interest in railroad circles over what is to become of the Nashville, Chattanooga and St. Louis, which has a terminus in Paducah and is operated by the L. and N. Only a small minority interest is thought to be outstanding exclusive of the L. and N. holdings.

The Chattanooga company earned gross last year \$7,992,530. Its operating expenses were \$5,156,930, leaving the net earnings at \$2,835,600. To this amount should be added \$13,130 from other sources of income, making the gross income \$2,848,730. From this must be deducted the following amounts: \$1,822,835 for interest, taxes and rentals; \$465,184 for betterments; \$26,000 for income bonds retired; and \$15,000 reserved for doubtful accounts, leaving an admitted surplus of 5 1-4 per cent. on the company's stock. The true surplus, however, is claimed to have been equal to 10 per cent. on the stock. In any state of the case the road has proved a valuable property, and it is presumed that it will be taken over with the L. and N. by the Atlantic Coast Line.

The statement comes from one of the high officials of the L. and N. railroad that there will be no changes in the management of the road as the result of its transfer by J. P. Morgan to the Atlantic Coast Line. President Milton H. Smith and the men he has gathered about him will continue to carry out their plans with regard to the road. It is also said that the talk about the Louisville and Nashville losing its identity as a railroad in any sense is mere idle gossip; that it will continue to be known as the Louisville and Nashville road.

### NATIONAL BANKS.

#### GOVERNMENT REPORT SHOWS THEIR CONDITION IN KENTUCKY.

The abstract of the condition of the national banks of Kentucky, exclusive of Louisville, at the close of business on September 15, as reported to the controller of the currency, shows the average reserve held to be 16.90 per cent. against 17.43 per cent. on July 16. Loans and discounts increased from \$22,141,700 to \$22,831,710. Gold coin decreased from \$793,102 to \$769,727. The total specie from \$1,269,430 to \$1,192,787. Lawful money reserve from \$1,821,169 to \$1,699,851; individual deposits from \$21,269,248 to \$21,094,508.

### MR. McKILLOP PROMOTED.

HE HAS CHARGE OF THE SHOPS AT MATTOON, ILL.

Mr. A. J. McKillop, formerly traveling engineer of the Memphis division of the I. C., left yesterday for Mattoon, Ill., to take permanent charge of the shops there. He was several days ago promoted to that position and his successor on the Tennessee division has not yet been appointed. Mr. McCreedy, the traveling engineer of the Louisville division, is attending to the Tennessee territory temporarily.

## THE TITLE IS CLEAR

Signing of Treaty Will Mark Beginning of Panama Canal Work.

Documents Showing the Title to the Property Is Perfectly Clear Now Secured.

### GENERAL KNOX HAS PAPERS

New York, Oct. 3.—William Nelson Cromwell, general counsel for the new Panama Canal company, who has returned from Paris, says he delivered to Attorney General Knox, in Paris, every conveyance, decree, concession, or other document relating to the properties of the new Panama Canal company from its inception, in 1878, showing a complete and perfect chain of title in the new Panama Canal company, and its unquestionable power to convey the canal, the plant, concessions and other property to the United States, free and clear of all liens or claims of any kind.

"To Monsieur Waldeck-Rousseau, who has just resigned the premiership of France to resume the practice of his profession, I submitted," he said, "all the documents and questions, and have received his elaborate opinions endorsing the same opinion, and, in addition, giving his conclusions that the title to the property is perfect and that the United States will acquire a complete and valid title thereto, free from any possible complication from creditors or stockholders of the old company."

"The conveyance of the new Panama Canal company will be supplemented by the official concurrence of the liquidator of the old company and by the representative of the bondholders of the old company, who have been fully authorized by decree of the court to grant such concurrence. Thus there is left no one to question the conveyance."

"In my judgment, it only remains to conclude a treaty with Colombia to fully satisfy the provisions of the Spooner law. That treaty has been nearly agreed upon, only three or four points being still under discussion."

"In my judgment, this is only a matter of time and skill, and I believe will end in the United States acquiring and completing the Panama canal."

### SHE CAN VOTE.

#### PRESIDENT'S SISTER GRANTED PRIVILEGE AT FARMINGTON, CONN.

New York, Oct. 3.—Mrs. Anna Roosevelt-Cowles, wife of Commander W. S. Cowles, U. S. N., and sister of President Roosevelt, has been admitted as an elector by the board of selectmen of Farmington, says a Hartford, Conn., dispatch to the World. Mrs. Cowles can now vote on school matters in Farmington, where she lives when not in Washington. Local woman suffragists believe the action of the president's sister will greatly aid their cause.

### OIL-BURNING FURNACES.

#### INVENTORS BUSY WITH DEVICES TO FOLLO THE COAL TRUST.

Washington, D. C., Oct. 3.—The inventors of the country seem to believe that a revolution is about due in the present method of heating houses, hotels and large buildings. Certain it is that there is a phenomenal rush for patents on all sorts of devices for converting furnaces and stoves into consumers of gas and liquids. This undoubtedly has been caused by the high prices of coal and the discovery of oil in California, Texas, Louisiana and other southwestern states.

### DWELLINGS BEING RATED.

Stamp Deputy C. O. Rose, of the insurance underwriters, has begun rating the dwelling houses of Paducah under the new schedule issued a short time ago. He and Mr. Barbour Gray, who is rating the mercantile risks, will work together, taking the same streets. The work begun by Mr. Rose will require about six weeks.

Marshal Charles McNutt, of Mayfield, arrived in the city at noon today with T. D. Boaz, colored, an attached witness in the case against the Caldwell negro who struck Boaz in the head several days ago.

# ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and oftenest attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

## THE REGISTRATION LAW

Next Tuesday, October 7, is registration day, and every male person who will have, at the November election, resided in the state one year, in the county six months and in the voting precinct sixty days will be entitled to register, unless disfranchised by crime.

In order to vote, a voter must register every year or he cannot vote at the general election. Any voter absent from the city on the day or days of registration, or confined at home by illness of himself or a member of his family, and thereby prevented from

registering, may go before the county clerk the week preceding the November election, make oath to the fact and the clerk will register his name on the proper book.

If any voter is in the city on the regular registration day, the first Tuesday in October, and is detained at home by illness on the supplemental registration day, he will not be entitled to register before the county clerk.

Youths who will be 21 on or before the general election day are entitled to register in October, if they possess the other qualifications named.

### MAYFIELD HACK TROUBLE.

The Mayfield hackmen are bordering on the same trouble that was experienced here several months ago, when the I. C. leased to the Palmer Transfer Co. the choice space at the local passenger depot to use for their cab stations. Yesterday space was marked off at the Mayfield depot for a transfer company and the outside hackmen were notified of the lease. So far no trouble has resulted, but it is reported there is likely to be.

Calhoun was turned loose, but Hendon was held over to the next grand jury under bond of \$500, in default of which he was returned to jail. They slipped up behind a buggy in which she was riding and began shooting, frightening the horses and causing them to run away and kill the young lady.

Brookport, Ill., Oct. 3.—On Tuesday, October 14, an election will be held at the city hall for the purpose of electing a village trustee to fill out the unexpired term of Alexander Green, and to vote on a proposition to extend the corporate limits of the town.

## THE TUG OF WAR

Foot-Ball Game This Afternoon Despite the Weather.

Hopkinsville Team Arrived This Morning and Is Ready for the Fray.

This afternoon the football game between Mr. Henry Rudy's team of the city and the South Kentucky college of Hopkinsville will be called at 4 o'clock, as advertised, notwithstanding the weather. The teams are both in excellent trim and will play the game through from start to finish, allowing the rain and mud to interfere with them in no way.

The Hopkinsville boys arrived here this morning at 7:50 and went to Hotel Lagomarsino, where they will make their headquarters during the time here. The Hopkinsville line-up is as follows: Evans, center; Hilly, right guard; Lafoon, right tackle; Fuqua, right end; Mason, right half back; Anderson, full back; Young, left half back; Lynn, right end; Noe, quarter back; Phillip, right guard; McClure, right tackle, and Beasley, Frank and Hancock, substitutes.

The Paducah boys are as follows in line-up: Dorris, center; Rieke, left tackle; Matthis, right tackle; Scott, right guard; Head, left guard; Judge, full back; Brooks, left end; Tate, right end; Wilcox, quarter back; Moore, right half back, and Rudy, left half back and captain of the team.

A great number of tickets have been sold and the game will be well attended. All the Hopkinsville boys are large fellows with few exceptions. The local boys have their codes and science down to perfection and will give the visitors a run for their money.

#### BEAUTIFUL COMPLEXIONS.

Are spoiled by using any kind of preparation that fills the pores of the skin. The best way to secure a clear complexion, free from sallowness, pimples, blotches, etc., is to keep the liver in good order. An occasional dose of Herbine will cleanse the bowels, regulate the liver, and so establish a clear, healthy complexion. 50c at Du Bois, Kolb and Co.

#### DIED IN HICKMAN.

Mr. J. D. McCandless of Hickman passed through the city this morning with the remains of his daughter, Miss Helen McCandless, aged 28, who died of malaria and inflammation of the stomach Wednesday night at Hickman. The remains are being taken to Bayou Mills for interment.

## PHYSICAL CULTURE

It Will be Again Used in the Paducah Public Schools.

A Teachers' Meeting Called for Monday to Give Instructions.

Superintendent Hatfield, of the local public schools, has issued a call for a general teachers' meeting for Monday afternoon immediately after the afternoon session has closed, for the purpose of instructing the teachers in a course of physical culture that has been placed in the schools.

The duties of the musical director, or instructor, Miss Grigsby, include the teaching of physical culture and she will instruct the teachers in this art. All the teachers will be at the High school building Monday afternoon and after the course is explained will teach the art in the schools. This was formerly used in the schools but has been dropped except in the lower grades, and in this department has been seldom used of late. All the windows are thrown up all the fresh air obtainable let into the rooms making it as good a place for physical culture as the well equipped gymnasium.

#### MOTHERS.

Who would keep their children in good health, should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. 25c at DuBois, Kolb and Co.

#### TO REVIVE UNIFORM RANK.

The Woodmen of the World met last night and steps were taken for a revival of the uniform rank here. Mr. Frank Bennett was elected captain, but there yet remain several other offices to fill. There are 28 at present desiring to go into the uniform rank, and State Manager J. H. Brewer, of Louisville, is here to assist in the work.

#### REMAINS TAKEN

Mr. W. B. Mills, of Louisville, is at the Palmer.

## "DOWN IN HOPKINS"

A New Kentucky Play to Have Its Initial Presentation Tonight.

Large Crowd Promised for the Kentucky—Lee Turner Lost Sight of.

"Down in Hopkins" will have its production at The Kentucky theater tonight. It is a Kentucky play by a Kentucky author, and is based on the troublous times between union and non-union miners in Hopkins county, in this end of the state.

Mr. D. A. Powers, the author, a Louisville newspaper man, is in the cast, as is Mr. James D. Wood, president of the Miners' Union, and a character well known throughout the state.

The company arrived this morning from Central City, where it rehearsed, and is composed of the following, who are at the Palmer: Messrs. J. D. Wood, D. A. Powers, Rich Jordan, Frank Kendall, Lounie Richie, Oliver Roehm, H. J. Foppe, Sam Lowe, Will Sinclair and Misses Margaret Ragan and Blanch O'Reille. Mr. Foppe is a Paducahan, and has had considerable experience on the stage.

The presidents of the local unions have been tendered boxes, and will occupy them this evening. The play promises to take well, and considerable interest is manifested throughout the state in its reception.

The Lee Turner company, in "Battle of the Quarterhouse" seems to be lost, strayed or stolen. It was due to play here tomorrow, but nothing has been heard from it, no advance agent showed up, and Manager English, after failing to locate it anywhere by wire cancelled the date and secured the French troupe. Turner started on the road the 23d of September, but owing to opposition in several of the places where he was billed, the route had to be changed and the company has been entirely lost sight of. A telegram from the manager of McCauley's theater, Louisville, yesterday stated that Turner was in Decatur, Ala., but a reply to Manager English from there stated no such company had been there.

French's Sensation troupe promises to draw well at The Kentucky tomorrow. Their boat is undergoing repairs here, and they have consented to give a performance at the theater, which will be the first the troupe ever gave off the boat.

Captain James Lemon arrived from Mayfield at noon today.

### DAILY THOUGHT.

A good American is a good Amer-  
ican, whether he comes from the  
north, the south, the east or the west.  
—President Roosevelt.

### THE WEATHER.

Rain tonight and Saturday.

To cap it all, Mayor Yeiser is re-  
minded that he is no longer a young  
man. He is called "grand-daddy" now.

President Castro, of Venezuela, is  
leading a rather strenuous life just  
now. The rebels seem to have him  
on the run.

This is a good time for a Democrat-  
ic campaign in New York. The peo-  
ple are clamoring for more gas on ac-  
count of the shortage in hard coal.

Senator Hill's slate went through  
the New York convention without a  
break. This will give the late Mr.  
W. J. Bryan material for a few more  
weeks of editorial meditation.

It's a cold day when they can't find  
some grounds for contesting a local  
option election in our neighboring cit-  
ies. By the time they finally settle  
one contest it is time to hold another  
election.

Former Police Chief Devery was  
ejected in the New York state Demo-  
cratic convention, but he will be heard  
from later on. It seems that he was  
toney enough for the crowd. It cost  
him \$50,000 to be elected and then he  
was kicked out.

The demand for steel is becoming so  
great in this country that with all  
our facilities we are unable to supply  
the demand, and many contractors  
have to go to Europe for it and pay  
the difference in cost. It is not on ac-  
count of any reduction in the supply,  
however, but because of the rapidly  
increasing demand.

The administration has made no  
public statement or explanation about  
either the discrepancy of \$3,000 in the  
reports of the finance committee and  
the auditor and treasurer, or the fact  
that the money in the treasury is  
about exhausted and there will be  
none with which to pay the bills after  
next week. Perhaps recent events  
have left the crowd entirely speech-  
less.

There were six cows in one bunch  
in the residence portion of the North  
Side day before yesterday. They  
wandered around inspecting the local-  
ity, and when they had become tired  
of the diversion one displayed her ath-  
letic training by jumping the fence of  
the prettiest yard on the block. And  
this in Paducah, a second class city

## HAS A BODY GUARD

Miss Helen Gould is Never Without  
a Faithful Attendant.

Was a Guest in St. Louis While the  
Kentucky Delegation Was There.

Councilman Ed Woolfolk, while  
with the Kentucky delegation in St.  
Louis this week, met among other no-  
table people Miss Helen Gould, the  
philanthropist.

Few people are, perhaps, aware  
that Miss Gould is constantly attend-  
ed by a bodyguard, whose sole duty  
is to look after her safety. This  
man's name is Tutt and he is over  
six feet tall and built like a giant.  
One of his special functions is to  
keep kodak fiends from taking pictures  
of Miss Gould, and it is said that  
when he sees a camera pointed in her  
direction he immediately breaks it to  
pieces. During his long service he has  
been arrested on numerous occasions  
for camera smashing, but Miss Gould  
bails him out immediately.

At the reception Tuesday evening at  
the Southern there, if anyone noticed  
the athletic gentleman attired in con-  
ventional dress, it was not mentioned,  
but he was her bodyguard.

## WRIGHT AND CHAFFEE

Accorded Popular Farewell Demon-  
stration.

Amid Continuous Lines of Troops They  
Were Escorted to the Landing Place.

Manila, Oct. 3.—General Chaffee  
and Vice Governor Wright sailed for  
San Francisco today on the transport  
Sumner. They were accorded a gen-  
eral and popular farewell demon-  
stration. The Philippine commissioners,  
Brigadier-General Davis, commander  
of the division of the Philippine Is-  
lands; the officers of the division and  
the staff assembled at military head-  
quarters and escorted General Chaffee  
and General Wright to the landing  
place through continuous lines of  
troops and cheering crowds.

The guns of Fort Santiago, where  
the travelers embarked fired a salute  
in their honor. There was another re-  
ception on board the Sumner, which  
was surrounded by launches.

The Sumner will touch at Nagasa-  
ki, Yokohama and Honolulu. The  
length of the steps will depend on the  
health of Mrs. Chaffee, who is still  
weak and unable to participate in the  
farewell ceremony.

General Wright will remain home  
five months. General Chaffee's staff is  
divided, Captain Lindsay and Lieut-  
enant Harper going on the Sumner  
and Captains Hutcheson and Ramsey  
sailing on the transport McClellan for  
New York.

## WAS NOT EXPLICIT ENOUGH.

Lawyer Evidently a Trifle Uncertain  
Where the Truth Lay.

There are still people who do not  
know what is good and what is evil.  
Really strange is it, however, that a  
lawyer should be found among these  
innocents. Yet it may be so, as the  
following story proves:

A lawyer was prevented from rep-  
resenting a client in court, and there-  
fore asked a colleague to do it for him.  
The latter readily assented.

But when the former returned he  
looked into the case to see how the  
business had gone, without, however,  
receiving much satisfaction; for he  
found that his friend, who was not  
only a poetic turn of mind, but ex-  
tremely precise, had merely written a  
short note:

"Truth triumphant, he succumbs."  
The lawyer stared at the words  
helplessly, then sat down and wrote a  
letter:

"Will you please let me know the  
result of the case; have we won, or  
the other side?"—Stray Stories.

march through the United States in

has just been published in Leipzig.

## AT ANOTHER TRIAL

It is Believed Roland Molineux Will  
Go Free.

Some of the Principal Witnesses Have  
Gone to Other States and Can-  
not be Found.

## IT IS A FAMOUS CASE

New York, Oct. 3.—Assistant Dis-  
trict Attorney Osborne is not sanguine  
of obtaining a conviction of Roland  
B. Molineux at his second trial on  
the charge of causing the death of  
Mrs. Katherine Adams, which is ex-  
pected to begin on Monday.

Apart from the additional burden  
placed upon the prosecution by the  
rulings of the appellate court, exclud-  
ing the Barnet letters and other im-  
portant evidence used in the first trial,  
Mr. Osborne finds that some of his  
most important witnesses have remov-  
ed to other states and are said to be  
unwilling to go on the witness stand.

"Altogether, there are seven or  
eight such witnesses," said Mr. Os-  
borne, "who live in New Jersey, Con-  
necticut or Detroit, and who either  
cannot be found or are unwilling to  
sacrifice their time by again attending  
the trial.

"I have just returned from another  
witness-hunting trip to Newark, N. J.  
One of the most important witnesses  
for the prosecution, Mamie Melando,  
I cannot locate at all. It was she who  
took care of Molineux's room in the  
chemical factory building at Newark  
and testified to having found note-  
paper identical with that used in writing  
one of the incriminating documents in  
the case."

## KISS MADE HIS FORTUNE.

Good Story of Poor Student and Ac-  
commodating Lady.

The story of Ingeborg Vinding and  
Poul Vendelbo Lovenorn is well  
known in Denmark. Poul Vendelbo,  
a poor student, went one day on the  
ramparts round Copenhagen and  
walked with two rich noblemen who,  
like himself had matriculated at the  
university. They happened to notice  
a singularly beautiful woman sitting  
at the window of one of the adjacent  
houses. One of the noblemen then  
said half-mockingly to Vendelbo:  
"Now, if you could get a kiss from  
that lady, Poul, we would defray the  
expenses of that tour abroad which  
you are so anxious to make." Vendel-  
bo took him at his word, went up to  
the beautiful lady and told her how  
his whole future depended possibly on  
her. She then drew him toward the  
window and, in the view of the  
noblemen, gave him the kiss he crav-  
ed. He then went abroad, and, re-  
turning at last as Adj. Gen. Loven-  
orn, paid the fair lady a visit. She  
was Ingeborg Vinding, and she had  
made a clever man's fortune by a  
kiss.

## AMERICAN BRAINS IN EGYPT.

British Newspaper Pays a Tribute to  
Yankee Ingenuity.

Downey had taken out the boxed  
parts of twelve locomotives to Alex-  
andria, shipped them up to Luxor on a  
broad-gauge road, from there to Shal-  
lal on the narrow-gauge, and thence  
to Wadi Halfa by felucca up the Nile.  
There he picked up workmen—chain-  
ed gangs of convicts, most of them  
murderers, of whom their Egyptian  
guards stood in momentary terror—  
who by main strength hauled up the  
locomotive parts to the top of the  
bank. Then by the same kind of mus-  
cular effort each part was successiv-  
ely handled until the engines stood  
completed. American brains had  
guided every action. And when the  
first train ran out to a little desert  
station, and one of the Greeks with  
whom the Sudan towns are begin-  
ning to swarm, had poked his head  
into the train and asked: "Is this the  
Yankee express?" Downey, leaning  
out of the cab to hear what he said,  
caught the strains of a discordant  
Arab band across the desert playing  
Sousa's "Stars and Stripes."—The  
World's Work.

## Astonished the Bishop.

The first Duke of Wellington once  
received a letter from C. J. London, a  
horticulturist, asking permission to  
see the Waterloo beeches at Strath-  
fieldsaye. Mistaking the signature for  
"C. J. London," and beeches for  
beeches, the duke gravely wrote to  
the bishop of London, to the great as-  
tonishment of that good man, that his  
Waterloo beeches had "disappeared  
long ago."

## THERE WAS NO FIRE.

The fire departments were called to West Clay street today shortly after noon, but found no fire. A telephone in the neighborhood of Gilbert's drug store burned out and this is what occasioned the alarm.

—The live bird shoot announced for Monday at La Belle park, at which a number of Louisville shooters were to be the guests of the Paducah Gun club, has been declared off, as the Louisville crowd cannot get here then.

## STEP BY STEP.

COFFEE GETS IN ITS FINE WORK.

Watch of the drinkers and observe that practically every one of them has some form of incipient or fixed disease.

Mrs. F. N. Wright of San Francisco, Cal., tells her experience: "I was 20 years old before I ever knew the taste of coffee, and before I commenced drinking it I never was troubled in the least with constipation, but after drinking coffee for one year I became constipated to such a degree that I had to resort to drugs to overcome it."

"After three years drinking coffee I had cultivated a chronic state of constipation and other annoying symptoms became manifest. The first thing in the morning I had a headache come on, a feeling of nausea, and these symptoms would persist until I had drunk a quantity of coffee. At first I did not associate these symptoms with the habit of coffee drinking. I thought my system must be run down, and I felt glad that coffee, instead of prescribed drugs, would relieve the weakness. Like many people, I did not reason from cause to effect."

"About this time I had an elderly nurse in my employ, who complained every morning of similar symptoms, and when I suggested mineral water, etc., to her for her biliousness she said, 'Nothing in the world but my coffee will relieve me when I feel so badly.' My husband began to complain, if he did not get his coffee at a certain time, of queer sensations in the stomach and head. I became alarmed at these coincidences, and came to the conclusion that coffee had as strong a hold on us as whiskey has with the veriest drunkard. About this time I was taken ill with inflammatory rheumatism, and the two doctors who attended me told me I would have to stop drinking coffee or remain a cripple, as they could not treat me if I persisted in using a drug stronger than the drug I needed."

"My husband and I agreed to try an experiment and commenced the use of Postum Food Coffee. The effect was marvelous and taught us some valuable truths, and now we would not touch a cup of coffee for anything. His business demands the utmost concentration of brain force continuously. He now looks like a new man; he has had no headaches or bilious attacks for some months, and digests all his food without any distress. I feel sure that he would have been a wreck if he had kept on with coffee."

"After I began using Postum I soon recovered from my attack of rheumatism and in a few weeks I could walk about again. I am no longer troubled with constipation, nausea or rheumatism. I firmly believe that the continued use of coffee becomes in time as harmful to the human system as alcoholic stimulants. I know my case and my husband's both demonstrate this clearly."

## MORGAN'S SIX MILLION.

HE WILL GET MORE THAN REPORTED IN L. AND N. DEAL.

New York, Oct. 3.—J. P. Morgan's profits in the Louisville and Nashville deal will amount to \$6,000,000. It has proved one of the most profitable that Mr. Morgan has engaged in for some time. The annual meeting of the stockholders of the Louisville and Nashville, which was to have been held in Louisville, was postponed without taking the action for which it was held. This gave rise to a report that there had been hitch in the deal.

This is denied by members of the firm of J. P. Morgan and Co. The action of the stockholders was due to the fact that certain points relating to the transfer of the Louisville and Nashville to the Atlantic Coast Line had not been settled.

Proxies representing 388,000 shares of the stock of the road were presented at the meeting but the management which controls the majority of the stock decided that it was better to take no action until all the details of the transfer had been settled.

## BROKE A LEG.

MISFORTUNE BEFALLS THE SON OF MR. WM. BROWN.

Byron, the four year old son of Mr. William Brown, of Tenth and Tennessee streets, fell from a lumber pile near the Sherrill-Russell Lumber Co. yard this morning and broke his right leg below the knee. He was playing about a block away from his home when the accident happened and was carried home by passersby who heard his cries. Dr. Horace Rivers was summoned and set the limb.

EGYPTIAN CHOLERA STATISTICS

Cairo, Egypt, Oct. 3.—There were 254 fresh cases of cholera reported in Egypt yesterday and 241 deaths from the disease. The totals since the outbreak, July 15, are 36,658 cases and 30,988 deaths.

The members of the Women's Christian Temperance Union yesterday afternoon decided not to send a representative to the state meeting at Madisonville. Dr. J. D. Smith will probably go and represent Paducah.

## JAPANESE PEARL DIVERS.

Great Danger Attends Search for the Valuable Gems.

The Japanese are the best divers for pearls, but there are also many South Sea Islanders, Malays, Danes and Swedes engaged in the work of going under water and hunting for gems. Each boat has an air-pumping apparatus to supply the diver when under water. With leaden shoes on his feet and a glass front in his helmet, the diver walks about on the ocean floor, fills his bag with shells and signals to be drawn up. The business is dangerous, for there are sharks and poisonous fish. To the sharks the men throw chunks of salt beef. Then there is the squid or devil fish that has the unpleasant habit of clouding the water with an inky fluid so he can approach his victim unseen and crush him with his tentacles. The shells are all opened by white men in the presence of the managers, for no one knows which shell may contain a costly gem.

## Tillman's Colored Friend.

One day recently when Senator Tillman was especially interested in senate proceedings he declined to leave the chamber in response to cards sent in by friend, saying that he would be out in the lobby later. Then an old colored man from South Carolina wanted to see the senator. He could not write his name on the card handed to him, but the doorkeeper, at his dictation, wrote "Sam Jackson." The card was taken inside and in a minute Tillman came into the lobby, chatted with the colored man for a little while and then handed him a good-sized bill, saying: "Now, Sam, you go and enjoy yourself. I must go back inside." "Thank ye, Marse Tillman," said the old negro as he hobbled away.

## Earns Gratitude of Women.

Representative George H. Fall, who introduced and championed the bill which recently passed the Massachusetts legislature making mothers equal guardians of children with fathers, says that most of the credit for its passage is due his wife, who, after her marriage, took up the study of law. She is a member of the Malden school board and the mother of five children.

## Popularity of Amos Cummings.

An example of the estimation in which the late Congressman Amos Cummings was held in New York was given two members of the congressional delegation which went over from Washington to attend his funeral. A cabman demanded \$3 for a very short drive and the congressmen thought it was too much. They appealed to a policeman, who said that when people come to New York for a good time they must expect to pay for it. "But we didn't come for a good time," said one of the visitors. "We came here to help bury our old friend Amos Cummings." "What! Amos Cummings," said the officer. "Say, caddy, you take a dollar and get away quick as you know how."

## The Car's Principal Defect.

Robert Ledyard, an Englishman now traveling in this country, is well posted on Russian affairs. He says the czar is known to be a man of most extraordinary mental caliber, the worst defect in his character being a want of resolution. It is no secret in Europe that Nicholas is ruler in name only, his ministers actually governing the vast empire. How poorly they manage is shown in their treatment of Finland, the people of which country, though docile, good tempered and industrious, have been driven by oppression into immigrating to this country by thousands.

**IMPORTANT DECISION.**

**THAT LAEVISON'S PALE ALE AND IRON-TONE ARE NON-INTOXICATING.**

Another victory has been scored by the A. M. Laevison bottling works regarding their mild drinks. Mr. F. Melton, the well known merchant of Mayfield, Ky., who has been handling "Iron-Tone" and "Pale Ale," manufactured by A. M. Laevison and Co., was tried before Judge Webb, of Mayfield, day before yesterday on the charge of dispensing intoxicating liquors in violation of the local option law. After hearing the evidence and testing the "Pale Ale" and "Iron-Tone," Judge Webb immediately dismissed the case, and informed Mr. Melton the drinks were non-intoxicating and he could sell them at his pleasure. This is further conclusive proof added to the heretofore favorably rendered decisions holding Laevison's drinks non-intoxicating.

**DO YOU WANT TO YAWN?**

Feel cold shiverings, aching in the bones, lack of energy, headache, and great depression? These symptoms may be followed by violent headache, high fever, extreme nervousness, a condition known as malaria. Herbine cures it. Take it before the disease gets a fair hold, though it will work a cure in any stage. J. A. Hopkins, Manchester, Kan., writes: "I have used your great medicine, Herbine, for several years. There is nothing better for malaria, chills and fever, headache, biliousness, and for a blood-purifying tonic, there is nothing as good." 50c at DuBois, Kolb and Co.

**FILL NEEDS REPAIRS.**

The joint street committee of the general council, composed of Aldermen Jones, Leigh and Greif and Councilmen Hannan, Potter and Hummel held a meeting at the city hall yesterday afternoon and decided to recommend the purchase by the city of property alongside the tannery fill, in Mechanicsburg in order to widen the fill and make it more substantial. It is said to be at present in a bad way, and continually washing down. Mrs. M. S. Harris owns the property and has offered to sell it to the city.

**READY FOR WINTER.**

**PLANTS ON THE ILLINOIS CENTRAL ALL BEING TAKEN UP.**

Mr. W. A. Keller, the gardener of the Louisville division of the Illinois Central, was in the city this morning on business and left for Central City to take up the plants in the I. C. lawns at that place. Mr. Keller is now taking up the plants on the Louisville division and storing them in the green house at Louisville. The best plants are kept over winter and the ones that do not grow well during the season are given to the conductors and other Illinois Central employees who want them. The flower beds of the Illinois Central were never in better condition and have never given better satisfaction than they have this year. The plants in the local depot lawn and in the flower bed at the shops and other railroad buildings, will be taken up immediately and sent to Louisville for keeping. From popular expressions the Paducah garden keeper will get the premium this year for the prettiest flower beds, as he did last summer.

**FIGHT WITH ROBBERS.**

**ENGINEER KILLS ONE AND PUTS OTHERS TO FLIGHT.**

Williamsport, Pa., Oct. 3.—Five masked men battered in the door of the Montoursville, Pa., Electric company's power house with the supposed intention of overpowering the engineer and looting a safe in the office. Engineer Bly secured a revolver and opened fire, killing one robber and wounding two others. During the fight Bly was shot twice in the hip and leg. He will recover. Bly managed to reach the whistle and sound an alarm. While doing so the robbers dragged their dead companion outside, stripped his body of all papers and valuables and escaped. The dead man was not identified, and is believed, from the general appearances of the body, to be a professional thief.

# BLACK ROCK

By  
RALPH CONNOR

## CHAPTER IV. MRS. MAJOR'S STORY.

THE days that followed the Black Rock Christmas were anxious days and weary, but not for the brightest of my life would I change them now, for, as after the burning heat or rocking storm the dying day lies beautiful in the tender glow of the evening, so these days have lost their weariness and lie bathed in a misty glory. The years that bring us many ills and that pass so stormily over us bear away with them the ugliness, the weariness, the pain, that are theirs, but the beauty, the sweetness, the rest, they leave untouched, for these are eternal. As the mountains, that near at hand stand jagged and scarred, in the far distance repose in their soft robes of purple haze, so the rough present fades into the past, soft and sweet and beautiful.

I have set myself to recall the pain and anxiety of those days and nights when we waited in fear for the turn of the fever, but I can only think of the patience and gentleness and courage of her who stood beside me, bearing more than half my burden. And, while I can see the face of Leslie Graeme, ghastly or flushed, and hear his low moaning or the broken words of his delirium, I think chiefly of the bright face bending over him and of the cool, firm, swift moving hands that soothed and smoothed and rested, and the voice, like the soft song of a bird in the twilight, that never failed to bring peace.

Mrs. Mavor and I were much together during those days. I made my home in Mr. Craig's shack, but most of my time was spent beside my friend. We did not see much of Craig, for he was heart deep with the miners, laying plans for the making of the league the following Thursday, and, though he shared our anxiety and was ever ready to relieve us, his thought and his talk had mostly to do with the league.

Mrs. Mavor's evenings were given to the miners, but her afternoons mostly to Graeme and to me, and then it was I saw another side of her character. We would sit in her little dining room, where the pictures on the walls, the quaint old silver and bits of curiously cut glass all spoke of other and different days, and thence we would roam the world of literature and art. Keenly sensitive to all the good and beautiful in these, she had her favorites among the masters, for whom she was ready to do battle, and when her argument, instinct with fancy and vivid imagination, failed she swept away all opposing opinion with the swift rush of her enthusiasm, so that, though I felt she was beaten, I was left without words to reply. Shakespeare and Tennyson and Burns she loved, but not Shelley or Byron or even Wordsworth. Browning she knew not and therefore could not rank him with her noblest three, but when I read to her "A Death in the Desert" and came to the noble words at the end of the tale,

"For all was as I say, and now the man lies as he once lay, breast to breast with God."

the light shone in her eyes, and she said: "Oh, that is good and great! I shall get much out of him. I had always feared he was impossible." And "Paracelsus," too, stirred her. But when I recited the thrilling fragment, "Prosperity," on to that closing rapturous cry,

"Then a light, then thy breast—  
Oh, that soul of my soul, I shall clasp thee again."

And with God be the rest!"

the red color faded from her cheek, her breath came in a sob, and she rose quickly and passed out without a word. Ever after Browning was among her gods. But when we talked of music she, adoring Wagner, soared into the wings of the mighty "Tannhauser," far above, into regions unknown, leaving me to walk soberly with Beethoven and Mendelssohn. Yet with all our free, frank talk there was all the while that in her gentle courtesy which kept me from venturing into any chamber of her life whose door she did not set freely open to me. So I vexed myself about her, and when Mr. Craig returned the next day from the Landing, where he had been for some days, my first questions were:

"Who is Mrs. Mavor? And how, in the name of all that is wonderful and unlikely, does she come to be here? And why does she stay?"

He would not answer then. Whether it was that his mind was full of the coming struggle or whether he shrank from the tale I know not. But that night when we sat together beside his fire he told me the story while I smoked. He was worn with his long, hard drive and with the burden of his work, but as he went on with his tale, looking into the fire as he told it, he forgot all his present weariness and lived again the scenes he painted for me. This was his story:

"I remember well my first sight of her as she sprang from the front seat of the stage to the ground, hardly touching her husband's hand. She looked a mere girl. Let's see, five years ago—she couldn't have been a day over twenty-three. She looked barely twenty. Her swift glance swept over the group of miners at the hotel door and then rested on the mountains standing in all their autumn glory.

evening. Turning to her husband, she exclaimed:

"Oh, Lewis, are they not grand and lovely too?"

"Every miner lost his heart then and there, but all waited for Abe, the driver, to give his verdict before venturing an opinion. Abe said nothing until he had taken a preliminary drink, and then, calling all hands to fill up, he lifted his glass high and said solemnly:

"Boys, here's to her."

"Like a flash every glass was emptied, and Abe called out:

"Fill her up again, boys; my treat!"

"He was evidently quite worked up. Then he began, with solemn emphasis:

"Boys, you hear me; she's a No. 1, triple X, the pure quill with a bead on it; she's a—"

"And for the first time in his Black Rock history Abe was stuck for a word. Some one suggested 'angel.' 'Angel' repeated Abe, with infinite contempt. 'Angel be blowed!' I paraphrase here. 'Angels ain't in the same month with her. I'd like to see any blanked angel swing my team around them curves without a shiver.'"

"Held the lines herself, Abe?" asked a miner.

"That's what," said Abe, and then he went off into a fusillade of scientific profanity expressive of his esteem for the girl who had swung his team round the curves, and the miners nodded to each other and winked their entire approval of Abe's performance, for this was his specialty.

"Very decent fellow, Abe, but his talk wouldn't print."

Here Craig paused, as if balancing Abe's virtues and vices.

"Well," I urged, "who is she?"

"Oh, yes," he said, recalling himself. "She is an Edinburgh young lady; met Lewis Mavor, a young Scotch-Englishman, in London, wealthy, good family and all that, but fast and going to pieces at home. His people, who own large shares in these mines here, as a last resort send him out here to reform. Curiously innocent ideas those old country people have of the reforming properties of this atmosphere. They send their young bloods here to reform—here in this devil's camp ground, where a man's lust is his only law and when, from sheer monotony, a man must betake himself to the only excitement of the place, that offered by the saloon. Good people in the east hold up holy hands of horror at these godless miners, but I tell you it's asking these boys a good deal to keep straight and clean in a place like this. I take my excitement in fighting the devil and doing my work generally, and that gives me enough, but these poor chaps, hard worked, homeless, with no break or change—God help them and me!" And his voice sank low.

"Well," I persisted, "did Mavor reform?"

"Agin he roused himself."

"Reform? Not exactly. In six months he had broken through all restraint, and, mind you, not the miners' fault. Not a miner helped him down. It was a sight to make angels weep when Mrs. Mavor would come to the saloon door for her husband. Every miner would vanish. They could not look upon her shame, and they would send Mavor forth in charge of Billy Breen, a queer little chap who had belonged to the Mavors in some way in the old country, and between them they would get him home. How she stood it puzzles me to this day, but she never made any sign, and her courage never failed. It was always a bright, brave, proud face she held up to the world, except in church. There it was different. I used to preach my sermons, I believe, mostly for her—but never so that she could suspect—as bravely and as cheerfully as I could, and as she listened, and especially as she sang—how she used to sing in those days!—there was no touch of pride in her face, though the courage never died out, but appeal, appeal! I could have cursed aloud the cause of her misery or wept for the pity of it. Before her baby was born he seemed to pull himself together, for he was quite mad about her, and from the day the baby came—talk about miracles!—from that day he never drank a drop. She gave the baby over to him, and the baby simply absorbed him."

"He was a new man. He could not drink whiskey and kiss his baby. And the miners—it was really absurd if it were not so pathetic. It was the first baby in Black Rock, and they used to crowd Mavor's shop and peep into the room at the back of it—I forgot to tell you that when he lost his position as manager he opened a hardware shop, for his people chucked him, and he was too proud to write home for money—just for a chance to be asked in to see the baby. I came upon Nixon standing at the back of the shop after he had seen the baby for the first time, sobbing hard, and to my question he replied:

## THE RIVER NEWS.

Observations taken at 7 a. m. River 3.9 on the gauge, a rise of 0.4 in last 24 hours. Wind east, a light breeze. Weather raining and cooler. Rainfall in last 24 hours 0.24 inches. Temperature 62. Fell, Observer.

Th Dudley is due from Evansville today.

There are nearly 6,000,000 bushels of coal at Cincinnati.

The Richardson cleared for Cairo this morning on time.

The Wilford is at Kuttawa loading ties and will be out again Tuesday.

The Clyde arrived out of the Tennessee river this morning with a good trip.

The Butterff left yesterday for Cumberland river, as mentioned, and was well loaded with freight.

The Clifton arrived from St. Louis at 7 o'clock this morning. She was overdue and left at 10 for the Tennessee river.

It has rained recently from one end of the Ohio valley to the other, and the river has been rising some at various points.

The Fritz was working this morning with the Alice Brown fleet opposite the city and will probably return to Cairo this afternoon.

River men are jubilant over the prospects of plenty of water. It is likely that soon there will be a good boating stage and all the packets will resume.

The Key City went to Golconda this morning for a barge of fertilizing stuff. She will return today or tomorrow and go to Tennessee river with a derrick boat.

Mr James Robertson, second clerk on the Dick Fowler, now wears the horns He was made an Elk last night, and is on duty again today despite his ride on the goat.

Mr. James Tyner, Jr., arrived today from St. Louis on his way home to Nashville. He is a clerk on the steamer Chester and has been ill for some time past, and is returning home to recuperate.

This morning two horses and buggy teams were on the sand bar opposite the city transferring passengers from the city to the Illinois shore. The teams drive onto the bar which is now a portion of the Illinois shore.

The steamers Henry M. Stanley and City of Wheeling are running with but half wheels; that is, the buckets have been taken off one side. It is claimed that it lightens up the stern. This is the first time it has been done.

The big towboat Boaz was floated yesterday, after having been aground several weeks. Captain Max Sebolt, of Pittsburg, assistant general manager of the coal combine, was here yesterday to look after her. She is now with the fleet on the Kentucky side below Jopli.

The ways now present an appearance that it has not had in many years. It is overloaded with boats and following is a list now pulled up for repairs: Cowling, Tennessee, Dick Fowler, J. M. Bowell French's Floating Palace with towboat making a total of six boats.

Captain John Agnew has returned from Lake Washington, Miss., where he superintended the building of four big barges and a steamer for cotton mill owners. Sam Bryant, Harry Faris, Tom Garvey and Charles Mahaffy, who were employed by him in the work, are now working on the government fleet at Memphis.

The Courier-Journal says: It is commonly asserted among steamboat men and rivermen generally that past experience proves that as goes the first or trial trip of a new steamboat or towboat so goes her lifetime existence. For instance, if on her first trip she meets with an accident, she will have accidents as long as she runs. If her machinery fails to work on her first trip, the chances are that it never will work successfully. If she sinks and is raised, she'll sink again. If she runs into something she'll do it again. If her hogchains let go and her hull gets out of shape, she will never get her chains to work or her hull in shape again. Upon this supposition or in view of this superstition, keep your eye on the career of the new steel towboat Sprague. She started out with defective hogchains, ran into a showboat, and will go on the marine docks at New Orleans.

Buddhists Outnumber Baptists.

It appears from a recent government bulletin that British Columbia has more Buddhists than Baptists, more Confucians than Congregationalists, and nearly as many pagans as Lutherans. Classified by religions, there are 40,672 members of the Church of England, 6,506 Baptists, 10,027 Buddhists, 4,804 Confucians, 1,197 Congregationalists, 5,332 Lutherans, 25,021 Methodists, 4,556 pagans, 34,176 Presbyterians and 34,227 Roman Catholics. The Mormons number only 125, faith healers 4, fire worshippers 3, Dowdites 48, Mohammedans 6.

Negro a Credit to His Race.

Among the advanced degrees given by Columbia university at the last commencement none perhaps represented more energy and perseverance than that of Master of Arts bestowed upon Moses Leonard Frazier. Mr. Frazier is a negro. He is said to be the only one ever graduated from the school of political science of Columbia. He was born in slavery in New Orleans, forty-two years ago. He chose the business of hair dressing and chiropody and made money.

## THE POST--OFFICE

It is Practically Assured That it Will Become a First Class Office.

The Increase During the Past Six Months Has Been Over Half the Amount Necessary.

### RURAL DELIVERY TO HELP

It now seems certain that the Paducah postoffice this time next year will be among those of the first class, ranking with New York, the big cities of the east, and in fact with every large city in the country, and being the only city in Kentucky in the first class outside of Louisville, Lexington and Covington.

The reason this is practically certain now is that the first six months of the present fiscal year have passed, and the report just completed shows that the receipts have increased over those for the same length of time last year, \$1,665.80, leaving to be made up by increase during the succeeding six months, only \$1,598.58.

At the close of the last fiscal year Paducah fell short of the receipts necessary to be advanced to the first class only \$3,264. As stated before, over half of this, \$1,665.80, has already been taken in during the present fiscal year, and as the last six months, because of the holiday trade, are much better than the six months just passed, it is reasonably sure that more than the remaining increase of \$1,598.58 will be made up before the end of the fiscal year. The advantages of having a postoffice in the first class are many. It gives a city commercial prestige, gives the postoffice more conveniences and the people more advantages, and entitles the city to representation in the National Postmasters' conventions, besides increasing salaries. The establishment of rural free delivery will also contribute no little to the increase in receipts, hence it is no extravagant boast to announce positively that the Paducah postoffice will within a few months be a first class office.

### ADJUDGED INSANE.

MRS. ROSA MEIGAN WILL BE TAKEN TO THE ASYLUM.

Mrs. Rosa Meigan was this morning adjudged a lunatic in County Judge R. T. Lightfoot's court.

Mrs. Meigan is the mother of James Meigan, a well known railroad engineer, and on several occasions has been known to light matches about the house and drop them as soon as lighted and at any place she may be. Twice she has set the house afire in this way and when seized in a fit of lunacy is dangerous. She imagines she owns property in New York and once, to pacify her, Mr. Meigan mortgaged her property in the city over which there is a suit in circuit court awaiting trial.

She often fails to recognize her own son.

Justice Jesse Young tried the case as Judge Lightfoot was busy and unable to hear the evidence.

### STILL COMING

OVER FORTY-FIVE LAWYERS LIVE AND THRIVE HERE.

Perhaps few people know that Paducah has an unusually large number of lawyers. This morning Judge D. L. Sanders was sitting in his office watching the rain when he concluded to count up as many as he could. He had the names of forty-seven when the reporter left, and the prospects were that he had still missed a number of them.

"The only thing I can't understand," he declared, "is how they all make a living."

There are no female lawyers here, and only two colored ones. Quite a number are recent additions to the local bar, and they are still "a-coming."

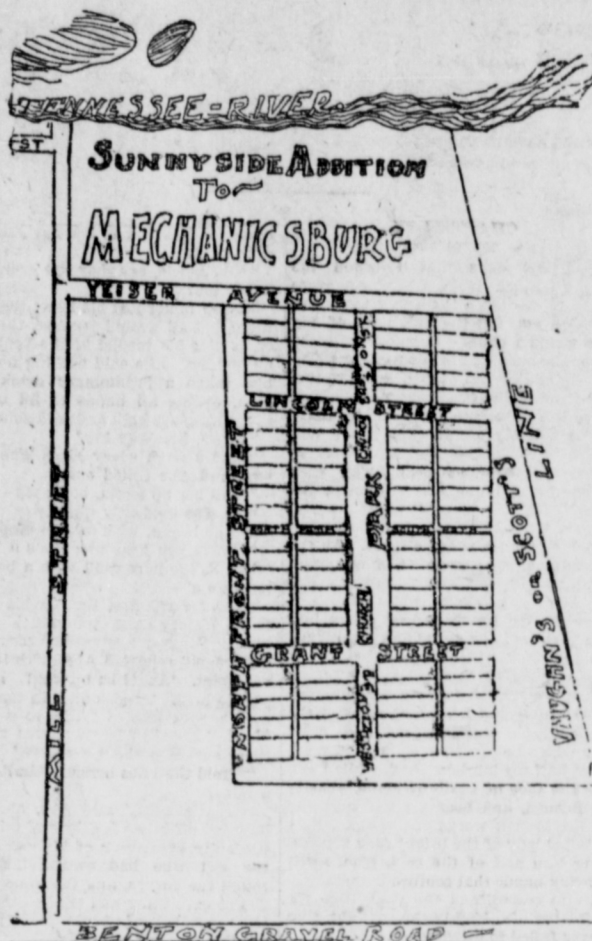

### RECRUITING OFFICE CLOSED.

Mr. D. H. Lynch, the recruiting officer who has been here enlisting recruits since the 12th of last month, left at noon for Louisville.

He received notice to close the local office this morning, which he did and went directly to Louisville. While here business was rather slack and he enlisted only seven recruits all told.

Mr. Alex Cook of Fulton arrived in the city this morning to visit his cousin, Dr. Will Wayne.

### THE PRINCE JUST GRINNED.

Discouragement of an Exhibition of Jacobite Loyalty.

Prince Leopold of Bavaria is to represent his brother, the regent, at the coronation—an arrangement not very satisfactory to those harmless lunatics known as the Thames Valley Legitimist league, who had hoped that Prince Rupert would have been sent on this errand, and given them another opportunity of demonstrating their folly. The last-named prince is the son of Princess Ludwig, who, according to the Legitimist, is "Queen Mary of England and Scotland." When he came to London on the occasion of the diamond jubilee, he was met and presented with a bouquet of white roses by the Thames Valley Jacobites, who hailed him as "Prince of Wales." The young Prince, who had a fair sense of humor, received the grotesque salutation with a very broad grin, and the folly ended in farce.—Newcastle (England) Chronicle.

### Joke on Congressman Cannon.

Congressman Cannon of Illinois gesticulates wildly with his left hand while speaking. This peculiarity gave "Sunset" Cox an opportunity to embarrass the Illinois man on one occasion. Mr. Cannon wanted to address the House on a bill in which he was much interested and Mr. Cox, who was speaker pro tem., agreed to recognize him. "How long can I have?" asked Cannon. "As long as you keep your left hand in your pocket," was the reply. When "Uncle Joe" arose to speak he had his hand in his pocket all right, but in just about thirty seconds he began to saw the air with it. "The gentleman's time has expired," said Cox calmly, bringing the gavel down amid a roar of laughter, for everybody had heard of the bargain.

### The Males in the Majority.

In all but eleven of the fifty-two states and territories the male outnumbered the female population. These eleven states are along the Atlantic seaboard. California contains the greatest excess of men, the recorded number being 156,009; Minnesota comes second, with 113,586; Texas third, with 109,000, and Pennsylvania fourth, with 106,007.
